

Hey there!

A quick update to let you know about the exciting new product ranges we are stocking for your workshop or projects.

Right now we're really excited to bring 3M's new random orbital polishing system to our catalogue.

3M™ Perfect-It™ Random Orbital Polisher

Easy to learn and control.

Designed to eliminate the dreaded swirl marks common with traditional rotary tools

The system is a combination of the circular and oscillating patterns of the Perfect-it and the specially designed pads, compound and polish.

And the best part, **unit under \$580**
We're impressed and think you will be too!

A showroom polish at **any skill level.**

- Finish sand to *p3000
- Use 3M perfect-it Random Orbital with Wool pad and 3m orbital compound to remove swirl and scratches.(if working on darker colours use coarse then graduate to medium wool pad)
- Use Purple foam polishing pad with 3m orbital polish for mirror finish.

Drop by the store or get in touch for more info!
