THE PAINT EXPERTS

# THE PAINT EXPERTS AUTOMOTIVE

We stock all the products you'll need for every automotive application.

We are suppliers to professional car and truck painters, panel beating suppliers, vehicle care and restoration specialists, commercial transport painters and DIY experts, providing an extensive range of custom colour aerosols, including lacquer, enamel and even water based paints.

Our paints are mixed onsite and our experienced colour experts provide exceptional colour matching for any make or model. We have the resources, range and knowledge to deliver quality information and products for all automotive requirements from fleets and stock cars, to classic and

race cars, and even tractors and bikes, including stand out finishes like Prizmatique, Harlequin, Vibrance.

We stock all the products you'll need for every automotive application. Our extensive range includes refinishing products such as primers, colours and clear paints, as well as a wide range of support products, application and safety equipment.

By using only the world's best paint systems, we're able to offer a full warranty (when application processes are followed as recommended), giving our customers, and their clients, complete peace of mind.

## SHARELLE & KELVYN YOUR LOCAL AUTOMOTIVE EXPERTS

Reds & whites are trending this winter! At Wynn Fraser we cater for both B2B & retail customers alike. It may sound simple but preserving your vehicle paintwork with regular car washes is highly recommended over winter. We can help ensure your car's paint and body panels are free from build-

ups of dirt, mud, grit, and grime that can lead to potential damages, and fight against corrosion and rust caused by road salt. All things car wash can be supplied right here at Wynn Fraser.
